

Sylmasta Environmental Policy

Sylmasta recognises that its activities have environmental implications which are potentially detrimental. The company recognises that effective management of our environment is an integral part of our business strategy.

Sylmasta are committed to:

- Minimising any adverse effects on the environment
- Complying with legal responsibilities with consideration to relevant environmental legislation
- Conserving the use of resources, such as saving electricity, reducing waste, recycling, preventing air, land and water pollution, reducing solvent use etc.
- Being sensitive to the environmental concerns of our neighbours
- Adopting environmental objectives
- Requiring suppliers and contractors to have proper regard for this environmental policy through use of a Supplier Code of Conduct
- Communicating this policy to all staff, suppliers and customers and seeking their help to implement it
- Ensuring all staff receive environmental information and training
- Reviewing our policy at least annually to comply with legislation or policy changes.
